

Sex for Guys (Groundwork Guides)

Sex for Guys is a book about love, desire, feelings, and sex for young men and other curious people. Nonjudgmental and informative, it tackles all of the important issues masturbation, homosexuality, pornography, and STDs without lecturing but with lots of good advice. From early chapters on the penis and vagina, Sex for Guys moves through the first kiss and first-time sex to gay sex and orgasm. Taking a strong stand for women's equality, author Manne Forssberg includes candid quotes from young men and women about their experiences with love and sex.
