

## A Soldiers Dominance: Army

Abby, if you really want this interview, then you'll let me have that perfect body of yours in exchange for it. My new job as an investigative journalist was about to take an interesting turn, when my boss sends me overseas to interview a soldier at war. The assignment seemed simple enough: Visit a specific Army base located in the desert and interview Sergeant Powers, a man who had supposedly led his troops through a countless number of successful gun fights. But when I get there, it becomes clear that this gorgeous, muscular and powerful soldier wants one thing and one thing only from me and it's not long before he begins to give me a lesson in military discipline that I'll never forget. Can I let this soldier have his way with me, hard and without protection, or will I really have a choice? This 5,600-word short story features a young woman being handled roughly by an muscular officer in the Army. This is not a love story.
