

## ASP.NET Core 1.0 in 24 Hours, Sams Teach Yourself

Microsoft has made the important decision to re-write ASP.NET from the ground up utilizing modern web framework techniques in order to modernize ASP.NET for today's servers. This re-invented ASP.NET is breaking out of its Windows constraints and will be capable of running on Windows, Mac and Linux servers. In just 24 sessions of one hour or less, you'll learn how to build complete, professional-quality web solutions with ASP.NET Core 1.0. Using this book's straightforward, step-by-step approach, you'll master the entire process, from site design through data collection, user management through debugging and deployment. In just 24 lessons of one hour or less, learn to create ASP.NET web sites that interact with user input and online databases. Using a straightforward, step by step approach, each lesson builds upon the previous one, allowing you to learn the essentials of the new ASP.NET Core from the ground up. Lessons, tips, and tricks that show you how to get the most of the new ASP.NET Core on Windows, Mac, and Linux with and without the aid of Microsoft Visual Studio. Get started with any personal computer and build your first web application with ASP.NET Core. Q and As, quizzes, and exercises at the end of each chapter help you test your knowledge. Notes and tips point out shortcuts and solutions. Covers the major new features of ASP.NET Core.
