

Global Legal Insights Corporate Tax 2015

Global Legal Insights - Corporate Tax presents the views of a group of leading tax practitioners from around the world, covering 29 countries and offering the opportunity to compare the different approaches taken to what are basically similar issues. There is no set format for each chapter; authors were invited to offer their own perspective on the tax topics of interest in their own jurisdictions, explaining significant technical developments but also identifying any trends in tax policy. The aim is to provide tax directors, professional advisers and indeed revenue authorities with an insight into the realities of corporate taxation in the chosen jurisdictions.
