

Accidental Mistress (BDSM, Femdom)

What would you do if you became the one in charge? After following her boss down a dark alley, Lori stumbles upon a secret sex club for rich and powerful men. When she thought to be someone else, Lori quickly finds herself strapped in leather with a whip in hand, ready to dominate her subject. How will she handle her new position of dominance when her subject is someone she knows? Not exactly what you're looking for? Visit Megan West's author page for more stories. Word Count: 4,800 Excerpt: His naked body looked tense, his cock aching for release, begging to be touched and part of her wanted to reach down and grab it. Those eyes looked up at her, the shock and surprise still burning in them. Lori slid the riding crop over the soles of his feet, daring him to twitch, daring him to move. Slowly she slid the crop up the length of his calves and his thighs, stopping to tap his balls before running it the length of his cock. She watched as his cock twitched against the hard riding crop, her eyes flickering between his cock and his hungry gaze that begged for release. She slid the crop the length of his cock before pulling it back an inch and slapping it with some force against his shaft. He didn't flinch. Again, Lori returned to sliding the crop the length of his cock, this time circling the head of his dick before drawing back the crop a little further and landing it harder against his cock shaft. Still, he did not flinch the way that she might have expected. Instead, his cock twitched and she saw a flicker of pain register in his eyes.
