

10 trends for nuclear in 2015

Written in a simple language to keep it short and clear, this e-book is going to present the trends and the latest advancements in the nuclear industry, as they happened in 2014. Ten areas are covered. The aim is to provide an informed summary together with 130 selected internet references for own consultation. A general knowledge of the energy industry is needed to appreciate the effort. Dr Giuseppe Cornacchia, 1973, holds a PhD in Materials Science, an MSc in Physics and Technology of Nuclear Reactors and a Masters degree in Nuclear Engineering. He works as an engineer and applied researcher in Italy.
