

Project Planning Explained: Project Management Books Volume 3

Do you feel as if your projects that you perform your job are just not up to par, lately? Maybe you have been submitting mediocre projects for years, and you want to up your game. Or maybe you are someone that is completely new to creating and planning projects, and just wants to learn how to get started. Whatever your situation is, this is the book for you. In this book, I will explain to you in a simple yet thorough manner how you can effectively plan out your projects so that you can impress your coworkers and boss, and give your career that boost that it needs. What you'll learn: - The basics of project planning (including how to analyze, come up with goals, how to establish good communication, etc.) - The details of planning - How to create a schedule - How to evaluate your plan (including three different, effective methods!) - As well as lots of motivation! Read on to change your career for the better.
