

The Arrow Collection Vol.1

The Arrow Collection Vol.1 collects the earliest solo adventures of the original hero known as The Arrow. We have gathered together the best possible scans of the original issues that are now over 70 years old. Extensive care has been taken to clean up the original prints (coloring, formatting, text), while sticking as close as possible to the originals. As with many comics at the time, books were quite large and filled with smaller stories from various lowtier characters. This collection skips over these nonarrow adventures to focus solely on The Arrow, one of the worlds first archery based superheroes. Specially formatted for Kindle Paper White, Fire HD, Fire HD 8.9
