

## The Royal Dirk (Historical Fiction for Teens: Illustrated Edition)

Selected by the Southern California Council on Childrens and Young Peoples Literature as an Award Book?, another great book from the folks at Beebliome Books. Young Alan Macrae turned, unbelieving, to look at the stranger who had been tending this brother. By the light of the fire in the cave he saw a tall, weary-looking figure. I am Charles Stuart, the man told him. Bonnie Prince Charlie - in a hillside cave above his own Scottish glen! Alan fell to his knees. And after that surprise, another followed. The Prince asked Alan to lead him and his men westward across the hills, to help them escape from the English armies who had again defeated the brave Scots. Before they set out Prince Charlie took a small silver dirk from the cuff of his coat and handed it to Alan. A remembrance from me. Guiding the Prince to safety was only the first of many unexpected and sometimes terrifying events that led Alan Macrae far from home. Across the Scottish and English countryside and finally to London, he associated with criminals and royalty, noblemen and spies. For loyally helping Bonnie Prince Charlie to flee the Scottish Highlands, young Alan Macrae is rewarded with the Princes own garnet-studded silver dagger the royal dirk. With it Alan hastens to exciting adventures in the atmosphere of mid-eighteenth-century Britain, authentically reproduced here by John and Patricia Beatty. This is a romance and a splendid one. The New York Times
