

## Wanted: Vodka Shots

Vodka Shots may save the love of Dmitry and Karri, and even move past their betrayal of each other. Dmitry is pissed as hell. He was betrayed by a woman he trusted and now she must pay. After a seemingly endless search, he finally catches up with her, but her reasons for her betrayal -- and her abrupt departure -- chill his blood. Together, he and his closest friend, Hawk, must break into a Consolidation stronghold and attempt a daring rescue before an innocent is turned into an abomination. Karri left Dmitry when her daughter was kidnapped by the Consolidation in order to gain information about the movements of The White Russian, Dmitry's friend and leader of a special force working to overthrow Consolidation power. Her decision cut through her like a knife, but with the life of her daughter hanging in the balance, she did what she had to do and is resolved to live with that decision. When Dmitry finds her, she knows her life is over. But before it is, she makes him swear to find her daughter and care for her. After that, he can exact his revenge. Only Dmitry has something else in mind. Oh, hell punish her, but not in the way she thinks. With secrets and conspiracies at every turn, Dmitry must decide who to trust, and the lives of everyone he holds dear may depend on his decisions.
